LB 326/LB 3x1/LB 3x1C

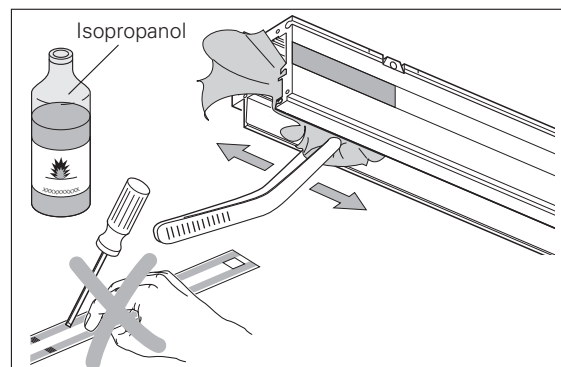

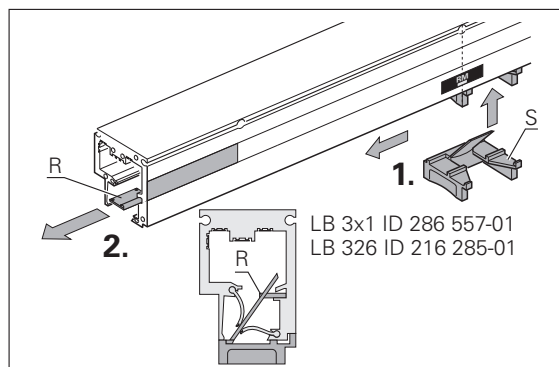

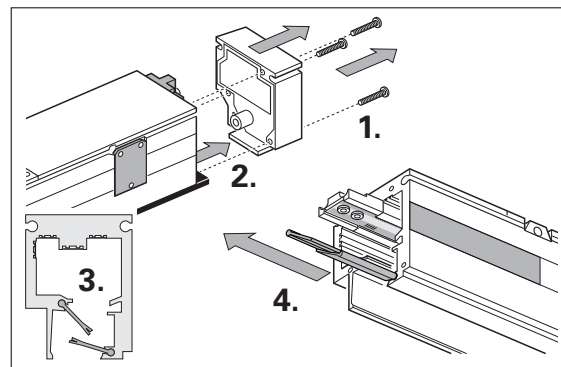

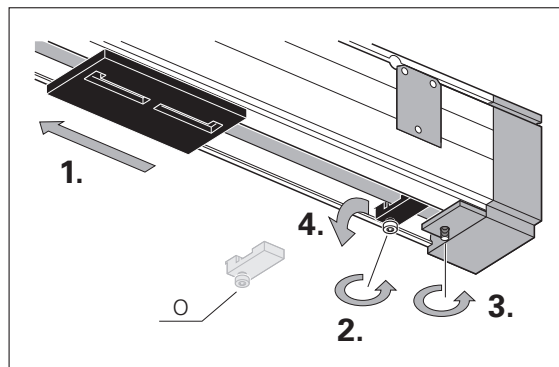

Bei starker Verschmutzung muss zur Reinigung das LB demontiert, Maßband und Dichtlippen ausgebaut werden. In diesem Fall empfehlen wir den HEIDENHAIN-Service.

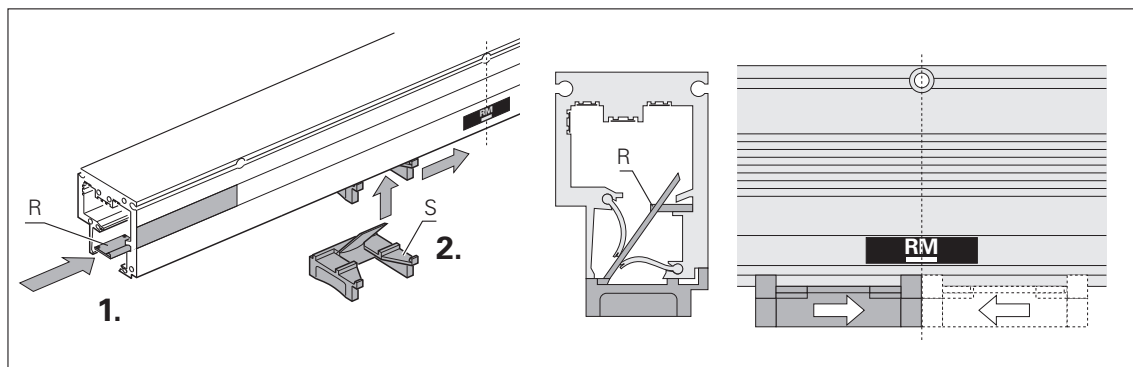

*If the LB is heavily contaminated, the scale tape and sealing lips must be removed.
In this event, we recommend contacting your HEIDENHAIN service agency.*

Si le LB est fortement encrassé, il faut retirer le ruban de mesure et les lèvres d'étanchéité pour les nettoyer. Dans ce cas, nous vous conseillons de prendre contact avec le service après-vente de HEIDENHAIN.

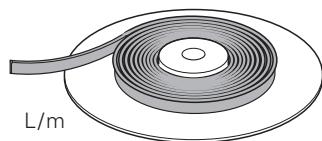

Per la pulizia la LB deve essere smontata, il nastro e le guarnizioni sfilati. In questo caso vi consigliamo di contattare il servizio di assistenza tecnica HEIDENHAIN.

Si la LB presenta elevada contaminación, deben desmontarse la cinta y los labios para su limpieza. En este caso, recomendamos contacten con la agencia de servicio HEIDENHAIN más próxima.
